

Kranthi Kumar Nagulapally

STAFF PROGRAM MANAGER | ENTERPRISE DELIVERY | CLOUDOPS & DEVOPS

Bengaluru, India | nagulapalli.kranthi@gmail.com | +91 81975 44424 | linkedin.com/in/kranthi-n

EXECUTIVE PROFILE

Enterprise program leader with 17 years of experience translating strategy into governed execution across CloudOps, DevOps, platform operations, service management and Agile delivery. Builds decision-ready operating systems that connect engineering flow, operational health, risk, financial signals and executive visibility.

CORE LEADERSHIP

Enterprise Program Governance	CloudOps & DevOps Operations	Executive Portfolio Reporting
Agile & Sprint Governance	Jira / JSM Transformation	SLA, KPI & Operational Health
Release & Change Governance	AI-Enabled Operations	Risk & Dependency Management

PROFESSIONAL EXPERIENCE

Staff Program Manager | Conga | Bengaluru | Feb 2023 - Present

- Lead cross-functional programs spanning CloudOps, DevOps, platform reliability, security remediation, release governance and operational excellence across globally distributed teams.
- Standardized Jira and JSM workflows, fields, dashboards, SLA visibility and sprint governance to create consistent execution and leadership reporting.
- Built executive-ready reporting using Jira, JSM, EazyBI, Power BI and automation; improved SLA adherence by 22% and reduced manual reporting overhead.
- Established sprint, dependency, scope, CAB and release-readiness controls across five operating pillars while keeping governance practical and decision-focused.
- Designed human-centered AI workflows for executive summaries, operational alerts and context-aware sprint nudges with clear ownership and auditability.

Program Manager | Deep LogicTech | Oct 2021 - Sep 2022

- Directed program planning, stakeholder governance, execution tracking and cross-team delivery; converted ambiguous objectives into owned milestones, risks and measurable outcomes.

Manager - Service Delivery | Mindtree | Mar 2021 - Sep 2021

- Led service-delivery governance, operational performance, customer communication, issue escalation and continuous-improvement execution.

Manager | Cognizant | 2011 - 2021

- Progressed through delivery and operations leadership roles, managing enterprise services, distributed teams, stakeholder outcomes, governance routines and operational transformation.

Associate - SQL Server DBA | Capgemini | Nov 2007 - Jun 2009

- Supported enterprise database operations, availability, incident resolution and controlled production changes.

SELECTED IMPACT

Enterprise delivery control

Created integrated governance across sprint commitments, dependencies, release readiness, risk and executive status for distributed engineering teams.

Operational service health

Implemented SLA controls, aging-work visibility, priority governance and automated leadership reporting that improved adherence and actionability.

Jira/JSM transformation

Standardized workflows, mandatory fields, routing, dashboards and hygiene controls to improve data quality and portfolio transparency.

Cloud cost governance

Developed realized-versus-pipeline cost reporting across savings, mitigated increases and cost exposure using Jira and EazyBI.

AI-enabled program operations

Designed governed agentic workflows for monitoring, reporting and nudges, with human escalation, anti-spam controls and measurable outcomes.

TOOLS & DOMAINS

Platforms: Jira Software, Jira Service Management, EazyBI, Power BI, Confluence, Advanced Roadmaps, GitHub, Cloudflare

Cloud & Operations: AWS, Azure, IBM Cloud, Kubernetes, Terraform, Jenkins, Spinnaker, OpenSearch, observability, SRE practices, FinOps

Governance: Agile/SAFe, ITIL, PMO, CAB, release management, change management, SLA/KPI management, risk, dependency and portfolio governance

EDUCATION & CERTIFICATIONS

MBA, Finance & IT - Sri Venkateswara University, Tirupati

B.Sc., Mathematics - Osmania University, Hyderabad

Certifications: ITIL | SAFe Agile

Focused on Staff / Senior Program Manager and Senior Manager opportunities in enterprise delivery, cloud operations, transformation and program governance.
